Highly motivated Computer Science graduate with a strong foundation in Web and Mobile Development, seeking an entry-level position to utilize and expand my technical skills. Eager to contribute to innovative projects and collaborate with a dynamic team to achieve outstanding results. Passionate about continuous learning and keen to apply my academic knowledge to real-world challenges to drive technological advancement.

IT Skills

- **Programming Languages:** JavaScript, JAVA, C, C#, PHP, Python, SQL, MATLAB (image processing)
- **Web Technologies & Tools:** Typescript, React JS, Next JS, Express JS, Node JS, MySQL, ASP.net, HTML5, CSS3, Bootstrap, Tailwindcss, Three.js, GraphQL
- **Mobile:** React Native, Expo, Kotlin
- **Databases:** SQL, NoSQL, MySQL, Microsoft SQL Server, Supabase, Firebase, Oracle
- **Other Technologies & Tools:** Git, Github, Figma, Visual Studio, VSCode, Android Studio

Education

Lebanese University

Sep 2021 - Jun 2024

Bachelor of Science in Computer Science (B.Sc.)

Relevant Coursework: Object Oriented Programming, Databases, Web Development, Discrete Mathematics, Data Structures and Algorithms, Operating Systems, Computer Networks, Advanced Data Structures and Algorithms, Image Processing.

Project Work

- **Smart AI Resume Builder Mobile App (2024):** Developed a React Native mobile application that enables users to create tailored resumes in under one minute using AI. Integrated features like an AI-powered Cover Letter Generator, which customizes cover letters based on the user's resume and job descriptions. Enhanced the app with offline and manual resume creation options, providing an intuitive and user-friendly interface. Designed a robust credit management system, including automated daily credit refills, consumption tracking, and subscription-based credit allocations. Technologies used: React Native, Expo, TypeScript, Node.js, and Supabase.
- **Job Match AI (2025):** Developed a Node JS app leveraging AI to analyze resumes and match latest job listings in different job websites. Integrated a web scraping module using the Cheerio library to collect job listings from multiple websites, ensuring up-to-date and comprehensive data. Designed and implemented a job matching algorithm that compares analyzed resume data with scraped job listings to identify and recommend the most suitable opportunities, streamlining the job search process for users. Technologies used: Node JS, Typescript, Express JS, OpenAI API, GraphQL
- **Agency Landing Page (PH Agency) (2025):** Designed and developed a new landing page for Perfect Harmony Agency with modern design elements, animations, and features. Leveraged Next.js to enhance SEO and performance, resulting in significant speed improvements. Implemented comprehensive SEO strategies, leading to higher search engine rankings. Integrated a secure, in-house messaging database, eliminating the need for third-party services. Utilized Figma as a design tool in the process. Technologies and tools used: Next JS, Typescript, Tailwindcss, Supabase, Figma
- **Online Marketplace React Web App (2024):** Developed a user-friendly marketplace platform using React JS. Implemented efficient search and filtering functionalities, allowing users to easily find desired products. Enabled seamless user interactions for creating listings, editing profiles, and engaging with other users. Integrated robust admin panel for streamlined product management. Successfully deployed the frontend, backend, and database on optimized cloud platforms. React JS, Express JS, MySQL, Bootstrap and MDB
- **Online Car Rental System (2024 - Academic Project):** Developed a comprehensive car rental company management system using PHP, MySQL, JavaScript, HTML, and CSS. Implemented features for car management, user management, rental management, company information, and reporting. Provided a user-friendly admin interface and a client-facing portal for booking and managing rentals.

Work Experience

Graphic Designer

2022 - Present

Self-Employed

- Worked for a diverse clientele, companies and individuals providing a wide range of graphic design services
- Specialized in social media designs, ads and logo design.
- Collaborated closely with clients to understand their needs and deliver projects that exceeded expectations.
- Managed multiple projects simultaneously, ensuring timely delivery and high-quality results.
